SENTIMENT NOW BULLISH.

Heavy Cetton Exports a Prominent Factor in the Dealings-Atchison, cific and Rock Island in Demand.

Thert was generous buying by the publie in the Stock Market to-day, and 200 Doz. prices which showed gains in the critidal dealings were held up throughout the session, the closing being only fractionally lower than the highest of tht day. Of the 745,300 shares traded in during the day about 160,000 were taken by investors, attracted to the market by nising conditions. Exports of 23 268 bales of cotton also influenced thterise

At the opening of the stock market to-day prices fluctuated vicionity and St. Paul P navyl a it and New York Centras were under pressure and were up ad down within a few minutes at times a point at a time. Soon after the first hour the whole market began to improve steadily and prices moved slowly upward with now and then a slight reaction. There was a resumption of selling in Galtimore & Ohio but it was said that the serious liquidation in this stock which had been prominent last week and the first two days of this week had been ended. The etock early showed weankers, but soon became strong with the remainder of

St. Paul, which sold down to 136 5-8 rose steadily to 139 3-8, while Pennsylvania advanced to 118 1-2, or a point and a quarter over the opening price and STEEL SYNDICATE'S There was good buying in the Gould issues and Missouri Pacific made a substantial advance, while Texas Pa-cific made a gain of a point.

London was a seller on balance of 10,000 shares. This was stock bought or the slump on Monday. Private advices from LLondon to houses with connections there say that London is not bear ish on American securities but was dis posed to take profits.

There was quite a little trading on the floor of the exchange in the next dividend on steel common. It was bid 1-2 and offered freely at 3-4. There is a general feeling mong the more con will not be cut. It is known that at the last meeting John D. Rockefeller opposed the declaration of the dividend It was then. The improvement in the circular appeared. iron and steel industry during the last two weeks may have had something to do with his change of opinion.

The commission houses all were crowded comfortably to-day, the public taking more interest in the market than for some time. In the early hours the lears opposed the advance, as was sown by the demand for stocks in the loan crowd. Those stocks in particular demand were Atchison, Union Pucific preferred and common. Pennsylvania, Western Union, St. Paul, New York Central, Rock Island and Steel common.

It was first thought that the syndicate practically intact.

Erie was very strong on buying by Morgan interests and advanced from 251-2to 27, a point and a half. This stock is being absorbed freely and the supply is rapidly becoming exhausted.

BIG RAILROAD EARNINGS.

Average Greater Than Last Year with Good Crops to Keep It Up. Rauroads of the United States, if all gross earnings for the first half of 1903 \$113,000,000 greater than for the same period of 1902. When it is considered that all records as to earnings were broken in 1902 this seems remarkable in ing of the Canadian Government obview of the steady depreciation in the price of securities. Such roads as have made reports for seven months show increases of gross earnings at the rate change of \$12,000,000 a month. The net earnings erious trouble was believed to have of \$12,000,000 a month. The net earnings are also greater than last year. The gross earnings for 1002 were \$1,612,448,-826 and the net \$520,234,727.

With an increase for six months of sold were easier at first but subsequentthe sum named it does not appear to by rallied and closed firm. Home rails unblased observers as if anything was unbiased observers as if anything was fundamentally wrong with the country. For August forty-two roads have reported and show an increase in gross of \$7,025,382 and a net increase of \$5,222,663. For two months of the fiscal year these forty-two roads show a gross increase of \$15,683,312 and an increase in net of \$7,175,712. With crops atmost as large as last year it is certain that these increases will be maintained for some months to come despite the steady decline in the prices of stocks.
